

Join the Movement!

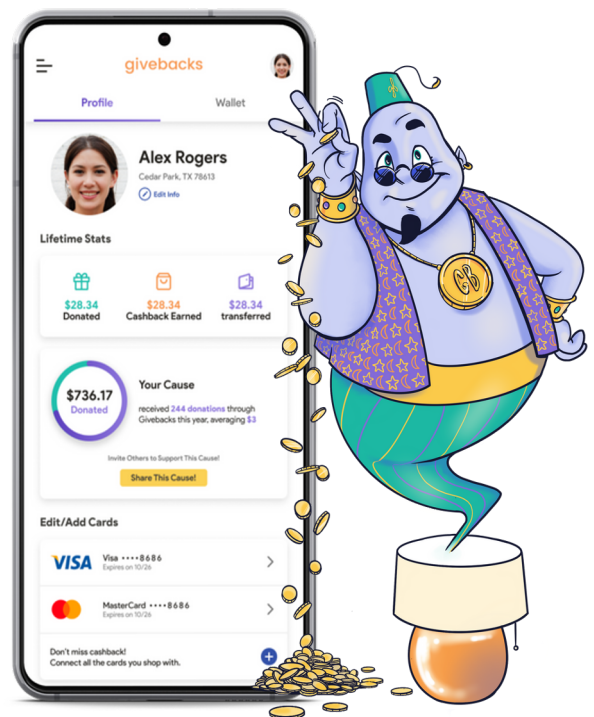

Givebacks is a cashback app funded by 25,000 local and national businesses. But it's not your usual cashback app. When you sign up and become a Backer, you and our cause get cashback every time you shop. What are you waiting for?

Once you become a Backer:

- ★ You'll get up to **10% cashback** every time you shop.
- ★ Our cause will get up to **1% cashback**, which doesn't come out of your pocket.

It's simple! Once you've selected our cause and created your account, you will:

- ★ Download the Givebacks Genie (Chrome browser extension) **on your desktop**.
- ★ Get the Genie **for your phone**.
- ★ Link your credit card for **in-person shopping** and dining cashback.

Cashback you've earned will magically appear in your Givebacks wallet, which **you can keep or donate to our cause** to supercharge your impact. It couldn't be easier. And you'll get to make the world a better place just by doing you!

Visit the link below or scan the QR code to become one of our backers today! We get a \$5 bonus for each backer who joins.

Frequently Asked Questions

Does it cost anything to shop Givebacks?

No, it's free for you to use. Givebacks collects a fee from participating merchants when you earn cashback.

How is it possible for me and my cause to get cashback?

Givebacks makes this win-win model possible by donating to your cause from our share of revenue. The donation to your cause doesn't come from your cashback. We do this because our mission is to create a model for social good within the ecommerce economy.

What is a browser extension?

A browser extension simply adds extra functionality to your Web browser. In the case of Givebacks, the extension (aka, the "Givebacks Genie") reminds you when you can earn cashback from your online shopping.

Does Givebacks sell my data?

We do not sell or share data with third parties outside of the partner networks, payment network, and other third parties contracted to perform the services and deliver the functions within the Givebacks application.

Does Givebacks store my credit card information?

No - Givebacks does not receive or store your bank account, payment card, or online payment service credentials on any systems that we operate. All credit and debit card information is stored with Spreedly, a leading payment platform that enables and optimizes over \$30 billion of annual transaction volume through its highly secure tokenization and PCI Level 1 compliant vaulting system.

What cybersecurity does Givebacks have?

Givebacks uses industry standard AES-256 encryption algorithm to encrypt your data.

How do I get started?

1

Create an account

Use our link below, and our cause will automatically be selected. You'll just need to set up an account. You know the drill.

2

Get the Genie!

Download the Givebacks Genie browser extension for your desktop and phone. The Genie will remind you when you can earn cashback! You can't make any magic happen without this step.

3

Get cashback in person

Link your credit card to your secure Givebacks account and claim offers to magically earn cashback with in-store purchases and dining.

Visit the link below or scan the QR code to become one of our Backers today!
